CS3242 3D Modelling and Animation

Final Boss Proposal

- Name: Yang Shiyuan
- Matrix No: A0214269A

What do you want to do? What is your deliverable?

- I will be attempting to fight the final boss of "Subdivision".
- According to the Lab's list of final bosses, I will attempt to deliver the following:
  - Barycentric subdivision
  - Loop subdivision
  - partial subdivision
  - Mesh Relaxation

What topics/algorithms/techniques will you use?

- Topic used will be on Mesh Operations and Mesh Simplification.
- The particular algorithms and techniques I have not yet fully discovered. Hence, I will be making use of the recess week to learn more.
